About the Judging

The judges are CISSP, FMDHS, CEH, certified security professionals who will be voting based on their independent review of the Company materials on the website of each submission including but not limited to data sheets, white papers, product literature and other market variables. CDM has a flexible philosophy to find more innovative players with great executives, new and unique technologies, than the one with the most customers or money in the bank. CDM is always asking "What's Next?" so we are looking for Next Generation InfoSec Solutions. Announcements will be for finalists in Q1 2018 and winners at #RSAC 2018.
